
FERGUSON MALONE ARCHITECTURE

March 15, 2021

Mr. Rocco Rasulo, Chairperson
Village of Irvington Architectural Review Board
Village Hall
85 Main Street
Irvington, NY 10533

**Re: Valentzas Residence
45 Station Road, Irvington NY
Parcel No. 2.80-34-5
Request for Siding Specifications**

Dear Chairperson Rasulo and Members of the Architectural Review Board:

Attached please find the requested specifications for exterior siding for the project at 45 Station Road. The project was submitted for the next Architectural Review Board meeting on March 22, 2021. The cut sheets included are for the Vertical Hardie Panel and Arborcoat Siding Stain as indicated on the architectural elevations and also highlighted in red on the attached cut sheets.

Please let me know if you or your consultants have any questions or concerns, and feel free to contact me at (914) 591-5066 or via email at jmalone@fergusonmalone.com.

Sincerely,

John Malone, AIA LEED AP

HardieZone® System

Only James Hardie® fiber cement products are Engineered for Climate®. In the northern U.S. and Canada, HZ5® products resist shrinking, swelling and cracking even after years of wet or freezing conditions. HZ10® products help protect homes from hot, humid conditions, blistering sun and more.

With James Hardie® siding and trim, homeowners have an exterior that's tougher than the elements and easy on the eyes.

Resist the elements
WITH IRRESISTIBLE BEAUTY.

Unique Formulation

HZ5® Substrate

Not all fiber cement is the same. The James Hardie HZ5 product formulation contains the highest quality raw materials. Proprietary additives, combined with an innovative manufacturing process and product design, create a substrate specifically engineered to reduce moisture and resist damage from wet or freezing conditions.

PROPRIETARY ENHANCEMENTS CREATE DURABLE JAMES HARDIE® SIDING

Perfect balance of strength and workability

Our balance of high-quality Portland cement, sand and cellulose fiber delivers the best combination of strength and workability.

Enhanced moisture resistance for unmatched durability

Patented and proprietary additives are chemically bonded within the HZ5® substrate matrix to provide durable moisture resistance.

Increased dimensional stability

Our siding is engineered at the microscopic level to create a fiber cement composite with superior dimensional stability that helps protect against shrinking and splitting.

MADE IN THE
USA

Integrity is ingrained
IN EVERYTHING WE DO.

HardiePlank®
Lap Siding
Evening Blue

The advanced design of HZ5® lap siding improves drainage from top to bottom.

In addition to the enhanced moisture resistance of our product formulation, HardiePlank® HZ5® lap siding features a modified profile with a sloped top and bullnose drip edge for improved drainage over the entire outer face of the board.

Sloped Top

Positive slope at top drains moisture to outer face of lap

Profiled Drip Edge

Bottom bullnose drip edge allows moisture to drain away from lap

Finishing Technology

Primer

A quality primer is the first step to ensuring that the paint color you select beautifully expresses a home's true character now — and for years to come. Our distinctive primer is climate-tested and engineered to enhance the performance of paint on James Hardie® fiber cement siding products. It helps to provide consistent, long-lasting paint adhesion, even in the most demanding conditions.

ColorPlus® Technology

Our advanced ColorPlus® Technology finishes deliver the ultimate in aesthetics and performance. Our products aren't simply painted at the factory. Our proprietary coatings are baked onto the board, creating a vibrant, consistent finish that performs better, lasts longer and looks brighter on your homes.

Exceptional finish adhesion

Our proprietary coating is engineered for exceptional adhesion to our substrate and applied to the surface, edges and features for durable performance.

Superior color retention

Finish is cured onto boards for a stronger bond, which allows for exceptional resistance to cracking, peeling and chipping.

Superior UV resistance

ColorPlus® Technology finishes retain vibrancy longer when compared to vinyl siding and typical field paints on other siding products.

ColorPlus®
Technology

Lasting beauty **BEGINS WITH THE FINISH.**

Our finishes help eliminate stress and reduce costly weather delays when it's too cold or damp to paint for extended periods. Now there's no reason to question whether or not sub-optimal painting conditions will negatively affect your paint job. In fact, there's no longer any need to paint on-site during installation.

ColorPlus® Technology finishes are fully cured in a controlled environment and arrive on your job site ready for year-round installation.

HardieSoffit®

A home is only as strong as its weakest point. HardieSoffit® panels reinforce your work by protecting the vulnerable gap between eaves and exterior walls.

Available in vented, non-vented and a range of pre-cut sizes, these panels complete your design and help protect it from moisture and pests.

VENTILATION BENEFITS

Using vented soffit improves ventilation in the attic space and reduces the chance of water vapor condensation that can lead to issues such as mold and mildew growth, stained ceilings and damage to the framing of the house.

In warm climates, HardieSoffit panels allow hot, humid air to escape, which not only helps prevent condensation in the attic, but can also help reduce air conditioning costs.

In cool climates, HardieSoffit panels help prevent condensation from forming on the interior side of the roof sheathing and reduce the chances of roof-damaging ice dams.

Get Inspired

CRISP & CLEAN

LIGHT COLORS

Whites and soft pastels are pure, clean, new and bright. Combine with other hues to add interest, personality and contrast. Works well on houses with Colonial Inspiration. A pastel A-frame cottage can look sweet and charming.

Arctic White

Navajo Beige

Cobble Stone

SUBTLE & SOPHISTICATED

NEUTRAL COLORS

Neutral rules the suburbs. These shades are safe, but also sophisticated. When accessorized with black or a darker color, a neutral can look fashionably stylish. Play with textures and use different tones for trim.

Iron Gray

Evening Blue

Night Gray

A BOLD CHOICE

DARK COLORS

Dark grays, blues and greens can feel both intellectual and modern. When used with white trim, they create drama. Works well in old neighborhoods, or urban environments, where there is a mix of old and new.

DREAM COLLECTION™

Looking to further express your sense of style? Look to our Dream Collection™ products.

- Featuring a color palette of over 700 ColorPlus® Technology finishes
- Made to order in a wide array of James Hardie® siding and trim styles
- Matches elevated design flexibility with the uncompromising performance of our fiber cement products

Monterey Taupe

HardieWrap®

No exterior cladding can prevent 100% of water intrusion. Your homes should have an additional line of defense. HardieWrap® weather barrier provides a superior balance of water resistance and breathability, keeping the area within the wall drier. This helps prevent moisture accumulation that may lead to mold and mildew growth.

INSTALLATION ADVANTAGES

- Thicker, more durable material for easier, quicker installation
- Superior tear resistance helps prevent water infiltration
- Can be installed with staples in place of cap nails for cost savings
- Provides a higher level of performance, no matter what type of cladding you specify

We've got performance covered

Install Done Right

Installation Accessories

HARDIEBLADE® SAW BLADES

Manufactured by Diablo, the HardieBlade® saw blade is designed specifically to cut fiber cement products, and is the only saw blade James Hardie recommends. The blade creates clean, precise cuts while helping to reduce the amount of airborne dust produced. Specially designed to outlast other fiber cement saw blades by 3X, outlasting carbide blades by 60X.

PACTOOL® GECKO GAUGE

The PacTool® Gecko Gauge is designed to improve the installation experience, allowing one person to hang HardiePlank® lap siding during installation. Studies suggest the Gecko Gauge can improve the speed of solo installation by 30%.

Finishing Touches

ColorPlus® Technology Accessories

TOUCH-UP KITS

Specially formulated to match ColorPlus Technology finishes, our touch-up kits offer resistance to aging, color change and chalking. Estimated one kit per 4000 sq ft of siding or 1600 sq ft of trim.

COLOR MATCHED CAULK

OSI® QUAD® MAX sealant offers a high performance sealant solution to color match Statement Collection™ products.* About 18-20 linear feet per tube. Refer to packaging for manufacturer's recommendations.

**For matching Dream Collection products, contact your local James Hardie representative.*

Trim Accessories

FLAT TABS

Eliminate face nails and improve the aesthetic of trim applications around windows, doors and band boards.

CORNER TABS

Use corner tabs to eliminate face nail holes that would detract from the finished look of corner trim installations.

Find useful job-site tips in our industry-leading Best Practices Guide. For the latest installation instructions, visit [jameshardiepros.com](https://www.jameshardiepros.com)

What is opacity?

A stain's opacity is the degree to which it reveals the natural grain of the wood. ARBORCOAT comes in five opacities—from clear to solid—each offering a level of color that reveals more or less of the wood.

¿Qué es la opacidad?

La opacidad de un tinte es el grado en el que éste revela el grano natural de la madera. ARBORCOAT viene en cinco opacidades, desde claro a sólido, cada uno de los cuales ofrece un nivel de color que revela más o menos de la madera.

ARBORCOAT, Translucent
BEAMS: *Black, ARBORCOAT, Solid*

TECHO Y PISO: *Caoba,*
ARBORCOAT, translúcido
VIGAS: *Negro, ARBORCOAT, sólido*

Available Opacities / Opacidades disponibles

CLEAR

- A clear protective coating with no color added

CLARO

- Un revestimiento claro de protección, sin color adicional

TRANSLUCENT STAIN

- Offers protection while allowing the grain pattern and texture to show through with the slightest tone
- Excellent for hardwoods
- Available in six ready-mix wood-inspired colors

TINTE TRANSLÚCIDO

- Ofrece protección a la vez que permite que el patrón del grano y la textura se vean con un suave tono
- Excelente para maderas duras
- Disponible en seis colores premezclados inspirados en madera

SEMI TRANSPARENT STAIN

- Allows most of the grain pattern to show through while providing additional protection
- Ideal for softwoods
- Available in 75 colors

TINTE SEMI-TRANSPARENTE

- Permite que se vea la mayoría del patrón del grano mientras proporciona protección adicional
- Ideal para maderas blandas
- Disponible en 75 colores

SEMI SOLID STAIN

- Provides a barrier with more color while covering most imperfections
- Ideal for softwoods
- Available in 75 colors

TINTE SEMI-SÓLIDO

- Proporciona una barrera con más color mientras cubre la mayoría de las imperfecciones
- Ideal para maderas blandas
- Disponible en 75 colores

SOLID STAIN

- Provides the most shielding and color while covering the majority of imperfections
- Suitable for all wood types
- Available in thousands of colors

TINTE SÓLIDO

- Proporciona la mayor protección y color, mientras cubre la mayoría de las imperfecciones
- Adecuado para todo tipo de madera
- Disponible en miles de colores

FIVE STEPS TO THE BEST FINISH

- 1 Preparation** The right preparation is the key to successful, long-lasting results. Benjamin Moore offers a full line of products to properly prepare your surface.
- 2 Select Color & Opacity** Choose from a variety of opacities, from clear to solid, in an array of captivating colors.
- 3 Audition Your Stains** Because different substrates influence the way the finished color looks, brush test areas of the stain(s) on the actual wood you will be coating. Color samples are available in all ARBORCOAT opacities and colors.
- 4 Application** Apply an even, uniform coat to a dry surface. Maintain a wet edge by not interrupting application. End at a natural point (at the window, door or end of a board). Do not apply in direct sunlight.
- 5 Maintenance** Keep stained areas free of leaves and debris. Periodically wash with Benjamin Moore's MULTI-PURPOSE CLEANER to remove dirt and other surface contaminants.

CINCO PASOS PARA EL MEJOR ACABADO

- 1 Preparación** La preparación adecuada es la clave para lograr resultados exitosos y duraderos. Benjamin Moore ofrece una completa línea de productos para preparar su superficie adecuadamente.
- 2 Elija el color y la opacidad** Elija de una variedad de opacidades, desde claro hasta sólido, en una variedad de cautivantes colores.
- 3 Pruebe sus tintes** Como diferentes sustratos afectan la apariencia final del color, aplique tinte(s) a áreas de prueba en la madera real que va a recubrir.
- 4 Aplicación** Aplique una capa pareja e uniforme a la superficie seca. Mantenga un borde húmedo evitando interrumpir la aplicación. Termine en un punto natural (una ventana, puerta o el final de una plancha). No aplique bajo la luz solar directa.
- 5 Mantenimiento** Mantenga las áreas tintadas sin hojas y restos de materiales. Lave periódicamente con LIMPIADOR MULTIUSO de Benjamin Moore para eliminar la suciedad y otros contaminantes de la superficie.

DECK & RAILING: *Silver Gray,*
ARBORCOAT, Translucent
