Subject: Revised Building Permit for Fence at 13 North Cottenet St, Application Number: 663

Ladies and Gentlemen of the Board,

At the Board meeting on March 22nd, I was asked to select either a wood or Aluminum fence rather than the vinyl fence proposed in the original permit application.

I am now proposing the Specrail S1 Bennington Ornamental Aluminum Fence. This is picket style aluminum fence in green and will be 3'6" in height, with a gate near the west side of the house as originally proposed.

The brochure for the Specrail Ornamental Aluminum Fences is enclosed. The subject fence is described on pages 2-4 of the brochure. An extract of those pages is also enclosed. Two additional pictures of fences very similar to this style are also enclosed.

I believe that this fence meets the Board's requirements. It will be attractive on the wall of the property and with the historical structure of the house. It should also provide adequate safety at the wall.

Thank you for your consideration.

Best Regards,

A handwritten signature in black ink, appearing to read 'Herbert Geiss', written over a horizontal line.

The New Standard of Quality

INTRODUCTION

SPECRAIL, a division of Porcelen, Ltd. CT. LLC, manufactures the most comprehensive choice of aluminum ornamental picket fencing systems to suit the discriminating needs of today's design professionals. With 50 years of experience in manufacturing and finishing of aluminum construction products, Specrail has enjoyed a leadership role within the industry that has been earned through providing the most styles and grades, while offering function, quality and durability of the highest standard.

Our 180,000 square foot plant located in Hamden, Connecticut includes complete state of the art fabrication and painting facilities. Porcelen, has been a leader in custom finishing since 1957 and offers the versatility of our POWDURA™ powder coating finish on our SPECRAIL fences. We know that every fence or gate we manufacture represents who we are, and so our commitment is not only to our customer's need, but also to our dedication to quality.

SPECRAIL's confidence in the quality and longevity of our product allows us to issue a Limited Lifetime Warranty with every fence system sold. This guarantee covers our products against rust, material defects and workmanship, as well as the painted finish against chipping, peeling, or cracking. Whenever you need lasting beauty and protection, SPECRAIL is your best choice.

A premium ornamental fence system with an attractive screwless panel design.

S-3

Distinctive Elegance By Design

S1 - Bennington

This fence is designed to blend into the natural cadence of virtually any landscape. Embracing a traditional fence style, it comes with an accent of spear points across the top.

S4 - Saybrook

This classic design with smooth rail top reflects the mood of a late spring evening.

S2 - Berkshire

Like the Bennington, the Berkshire recreates elegant tradition but comes with staggered spear point picket tops.

S5 - Newport

Inspired by the life of the ocean, this scallop design with traditional spear points is a statement of grace.

S3 - Essex

With its classic smooth rail top and traditional spear points below, the Essex is designed to meet the most demanding aesthetic needs.

S6 - Citadel

The Citadel's crown design with traditional spear points suggests the power of authority with a subtle ease.

Indicates available also in our patented ALUMINATE® screwless design in all grades.

Quality — Specifications

Residential SR

Specrail Residential (SR) aluminum fencing offers a combination of durability, strength and clean appearance, and will keep their attractive finish over a lifetime. Like all Specrail fencing systems, matching gates are available for all of the styles.

The SR system offers a classic appearance to any perimeter and is available in 6' wide panels.

SR-2

The Specrail Residential (SR) grade fence system can be applied to a wide range of residential uses. To define residential property lines or enclose a swimming pool, Specrail fence is the perfect choice. It will provide safety, function and beauty for years to come.

Residential Wide SW

Specrail Residential - Wide (SW) aluminum fencing is an innovative design, which combines the light weight of residential with the bold appearance of a heavier system. The result is a fence that truly enhances the appearance of any estate.

The SW system is available in either 6' or 8' wide panels.
