DIRECT-SET

MINOR PROFILES. MAJOR VIEWS.

An ultra-narrow profile maximizes views and natural light.

With one of the narrowest profiles available, our direct-set windows offer an ultra-narrow 2-11/16" mullion when combined with other direct-sets. They are available on their own or can seamlessly connect to other products and styles with our innovative mullion system.

EXTERIOR GLAZING BEAD

Precision-cut joints minimize gaps. Three distinct profiles can complement any design aesthetic.

INNOVATIVE MULLION SYSTEM

Easily connect multiple windows to one another to create a seamless wall of glass.

INTEGRATED WEEP CHANNEL

A full-length kerf at the sill provides drainage without unsightly weep gates or exposed holes.

Shown with
modular mullion
frame and beveled bead

REFINED INTERIOR PROFILES

Thoughtfully simple interior profiles draw the eye to the view, not the framing.

5/8" JAMB FRAME

The narrow jamb face easily disappears into surrounding wall materials.

THERMALLY-BROKEN DESIGN

Advanced polyamide thermal strut is designed to deliver optimal thermal and structural performance capable of meeting the most stringent codes in North America.

Shown with
square bead

MULTI-SLIDE DOORS

INSIDE IS THE
NEW OUTSIDE.

Moving glass walls open massive spans to create living spaces that flow effortlessly onto outdoor lounging areas.

Accent the connection between a home and its surroundings. Multi-slide doors offer the unique ability to open massive spans to the outdoors and create unforgettable spaces that let your imagination soar.

TRUE ARTISANS

IN-SWING FRENCH CASEMENT

INVITE NATURE IN

For centuries, architects have used in-swing French casement windows to bridge exterior and interior spaces and create unparalleled panoramas. With their exposed hinges and cremone hardware, nothing else comes close in terms of historic charm. Thrown open to welcome the sun and summer breeze, Lepage's in-swing French casement windows are a glorious invitation to let nature in.

KEY FEATURES

- > Frame and sash made of non-jointed solid wood
- > Distinctive historic design and panoramic views
- > Interlocking sashes that open simultaneously
- > No fixed post between the sashes for an unobstructed view
- > Premium antique-style hardware options
- > Wood screen options

AVAILABLE WITH
ALUMINUM CLADDING
Colonial or Puffy glass profile

FRENCH DOORS

INSIDE OUT BEAUTY

Whether you choose a classic or modern design, it's always comforting to step through the timeless beauty of one of our French doors. Dependable and durable, Lepage French doors feature various panel options and sizes, making it the perfect choice for a garden or pool area, while creating a seamless transition from inside to outside, expanding your home's livable space.

KEY FEATURES

- > Variety of frame depths for deeper walls
- > Multipoint or mortise hardware lock system
- > Top-quality concealed weatherstripping
- > Available with two, three or four panels
- > Available with triple glass and 2 1/4 in. panels for increased thermal performance
- > Wood storm and screen combination
- > Stiles and rails with different sizes
- > Raised or flat panel options
- > Impact Series available

The 100 Year Roof

North Country Slate®

UNFADING BLACK

North Country Unfading Black is a premium quality roofing slate offering an elegant and lasting roof for both new construction and restoration projects. Favorably compared to the famous slate of the Monson region of Maine, this smooth, rich black slate with a slight luster has earned the admiration of architects, contractors and building owners around the world. North Country Unfading Black slate meets or exceeds ASTM requirements as an S-1 rated roofing slate. This slate is produced by a single quarry in North America and is exclusive to North Country.

THERMALLY ADVANCED FRAME SYSTEM

Pultruded fiberglass sub-frame with aluminum interior and exterior covers provides optimal thermal efficiency.

ULTRA-NARROW STILE AND RAIL PROFILES

Narrow 2.5" wide stiles and rails maximize views while the 2.25" panel thickness ensures enduring strength.

INNOVATIVE THERMAL-BREAK DESIGN

A unique polyamide design helps prevent thermal bowing while delivering exceptional thermal and structural performance.

QUAD ROLLER*

PRECISION BEARING QUAD ROLLERS

Eight precision bearing rollers per door panel deliver effortless operation even with the largest panels. Fully adjustable rollers ensure the highest levels of performance.

* Smaller width panels require dual rollers instead of a quad
