### Glossary

**Certified Product Directory (CPD)Number** - a unique number used by the NFRC to organize product listing of certified products.

**Condensation Resistance (CR):** Measures the ability of a product to resist the formation of condensation on the interior surface of that product. The higher the CR rating the better it resists forming condensation.

**ENERGY STAR** is a program of the U.S. Environmental Protection Agency designed to recognize products that meet strict energy efficiency guidelines. Learn more about ENERGY STAR.

**Solar Heat Gain Coefficient (SHGC)** measures how well a product blocks heat from the sun. In warm climates, the lower the number, the better. Here you want to keep heat out by choosing windows that reflect solar radiation. Less heat coming into the home means lower air-conditioning costs and a reduced carbon footprint. In cold regions, your windows can also help you take advantage of solar radiation, which is free heat that eases the workload of your furnace or other energy-powered heat source. A higher solar heat gain coefficient means a window will allow more heat to pass through.

**U-Factor:** (Btu/hr.-sq. ft. - °F.) A measurement of the amount of heat flow through a product. The lower the U-factor, the greater the resistance to heat flow and better its insulating value.

The National Fenestration Rating Council (NFRC) has developed and operates a uniform national rating system for the energy performance of fenestration products, including windows and doors. For additional information regarding this rating system, see [www.nfrc.org](http://www.nfrc.org).

NFRC energy ratings and values may vary depending on the exact configuration of glass thickness used on the unit. This data may change over time due to ongoing product changes or updated test results or requirements.

**CLEANING:** Authentic Window Design shall keep the premises free from accumulation of waste material and trash. Job site will be kept broom clean on a daily basis. Upon completion of the work, we will remove all trash and waste material from the premises.

**WORKMANSHIP:** All work will be carried on in an orderly manner, and skilled workmen will be employed throughout the course of the job. Authentic Window Design's standards are based on the National Association of Home Builders Quality Standards for the Professional Remodeler.

**HAZARDOUS MATERIALS:** If your house was built before January 1<sup>st</sup>, 1979 you must sign the Environmental Protection Agency (EPA) Lead Safe Practice or "Renovate Right" pamphlet to show acknowledgement that AWD has given you the pamphlet. This pamphlet gives basic facts about lead and your health. Houses built before this date does not necessarily mean you have lead paint. AWD will NOT test the areas involved, unless previously agreed upon. The discovery and/or testing of any hazardous materials as defined by the EPA will require AWD to follow the EPA guidelines for the safe removal of such materials and a fee will be involved for this service. **Initialing here acknowledges you have read the Hazardous Material Section ( )**

**UNFORESEEN CONDITIONS:** All hidden, concealed or unforeseen conditions, including code violations, that must be repaired, corrected, replaced, or overcome, shall result in a charge order to the work.

**SITE:** The owner is to provide a key as necessary to the construction supervisor. The owner is to provide a bathroom facility for the workers. Authentic Window Design shall not be held responsible for non-negligent damage to driveways, walks, lawns, shrubs or vegetation that may be caused by normal movement of man or material.

**ESTIMATED TIME OF START & COMPLETION:** The approximate start date for this project is (19-20 weeks for Elevate/Essential collections & 20-22 weeks for Ultimate collection) from date of executed contract. The approximate time of substantial completion on this project is 10 day(s) after construction begins, not including weekends. **These starting and completion dates are subject to product delivery dates from factory, weather conditions and field changes.**

**INSURANCE:** Authentic Window Design & Contractor shall carry insurance for the entire time of construction including worker's compensation, property damage and public liability insurance as required by the state.

**WARRANTY INFORMATION:** Authentic Window Design has a Limited Lifetime Labor Warranty. All factory materials used are as specified by the manufacturer and are available upon request.

**CONTRACTOR RIGHT OF RESCISSION:** This contract is subject to field verification. Authentic Window Design reserves the right to cancel this agreement within 10 business days of acceptance.

**EXCLUSIONS:** Unless otherwise specified, the following are not included in this contract:

Alarm work of any kind  
Painting and or staining  
Filling of nail holes  
Removal or installation of window treatments  
Washing of windows  
Building Permits are the responsibility of the homeowner unless otherwise specifies in this contract.

**THIS PROPOSAL IS VALID FOR 30 DAYS.**
